Operation

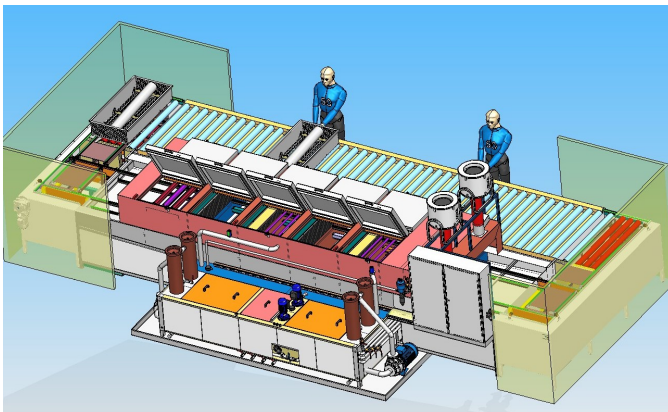

- 3 conveying modes :
 - Stainless steel wire belt
 - Two carrying chains
 - Two chains with parts holder
- Capacity:
 - Effective width: 100 mm to 9 m
 - Effective height: 7mm to 1200 mm
 - Flow rate: 0,5 to 2m / min

Application examples

- Tunnel 8 modules
 - Degreasing 1-2
 - Phosphate coating
 - Drying 1-2
 - Passivation
- 3 conveying way
 - 1 part cleaned every 25 seconds

- Loop conveyor
- Tunnel 5 modules

- Hinge cleaning (Wide : 2,5 m)
- LARGE WIDTH tunnel
